

The New York Commercial Advertiser describes the inventions of American genius, exhibited at a late annual meeting of the American Institute. We select the following, which we suppose will be most interesting to our readers.

"First on our list we place the model of an invention, which, if successful, will open a new era in the history of travelling by railroads. It is a plan for an improvement in any locomotive now in use, which will enable it to travel with equal facility an inclined plane or a dead level. The method by which this is effected has at least simplicity to recommend it. The axle of the rear wheels of the locomotive is made long enough to hold two smaller wheels at its extremities. These small wheels run upon a railway, built for the purpose, at the point at which it is necessary to overcome an elevation, and the larger wheels are lifted by the smaller from the road. The weight of the locomotive is thus rested upon the fore wheels and the two supernumerary wheels. The same power which is necessary to draw three hundred pounds along the dead level with the ordinary wheels of the model in question, will, when the small wheels begin to act, draw six hundred pounds up an elevation graduated on the scale of six hundred and five feet to the mile. The invention, we understand, has been submitted to the inspection of several mechanics of known practical experience, who are unanimous in their prognostications of its complete success. One of the engineers of the New York and Erie Railroad gave it as his opinion that \$500,000 would be saved on the line of that road by adopting a locomotive built on this plan, for surmounting the Shawangunk mountain. The inventor is William F. Ketchum, of Buffalo.

Webb's patent burner exemplifies how much light can be obtained at a very little expense. A chandelier, of six branches, which illuminates all that part of the room in which it is placed, costs but six cents per hour to keep it burning.

The self-loading rifle is the name of one of the destructive engines of war which modern ingenuity has invented to aid in killing off the human species. It can be loaded and fired, with ease, sixteen times in a minute. The inventor is Silas Day, of New York.

The self-playing organ, by this same manufacturer, seems well adapted for country churches, where it is difficult to obtain the services of an organist. The instrument is played on by turning a crank. An unlimited number of tunes can be produced.

Beach grass paper, and a specimen of the material from which it is manufactured, exhibited by J. Sanderson.

Among the articles, our attention was strongly attracted by a new species of cloth. There are several pieces in the exhibition, of different textures and thicknesses, and other patterns, we understand, are to be added to-day. It is from the Union Manufacturing Company's mills, at Norwalk, Connecticut, and is made, strange as it may appear, without either spinning or weaving, by a process similar to that employed in manufacturing hat bodies. It is without threads, and finished on the surface, leaving the body of the cloth perfect and entirely unimpaired by the process of finishing. In manufacturing, the wool is put together at right angles, in a web, by very ingenious patented machinery, with great rapidity, and at an incredibly small expense. It can be made of any desired thickness. The advantages claimed for this over cloth manufactured in the ordinary way are, that it is much less expensive, that it is warmer, and that it will last longer. We should judge from the specimen before us that this cloth would be an excellent article for overcoats. One thing is certain about it, he who wears it can never have a threadbare coat.

The proprietors of this invention feel very sanguine that it is calculated to effect an entire revolution in the woollen manufacture, and raise that branch of our domestic industry to an effectual competition with the foreign market.

In one of the side rooms are two machines which attract a great deal of notice from the visitors. One of these is a machine for reeling silk; the other is a silk spinner and twister, for making sewing silk. The latter is in operation, and it is a matter of some curiosity to those unacquainted with the method of manufacturing silk, to see the manner in which it is done. The machine appears to be simple, and well calculated to perform the labor it was intended for. The inventor is Jonathan Dennis, Jr., of Portsmouth, Rhode Island.

BUCKWHEAT.—Let every farmer who regards the comfort of his family—who values the gratification of their appetites—put in a patch of this grain as speedily as possible, and his good wife, in the superiority of her cakes, will make him confess that there is no accompaniment for a winter breakfast, equal to bread made from Buckwheat. But independent of its good qualities as a table luxury, it has other things to recommend it. It is the best thing on which hens can be fed in the winter, the large quantity of lime which it contains contributing greatly towards the formation of the shell of the egg, and thus imparting to the hen increased capacity for laying at that period of the year. It is good food for horses and hogs, possessing, when ground, the property of fattening in an eminent degree.—*Farm & Gard.*

BRIMSTONE FOR CATTLE.—It is probably not known to many of our farmers, that brimstone is valuable for cattle, in keeping them from having ticks. Those vermin are not only filthy in their appearance, but an injury to cattle. A piece of brimstone as large as a grain of corn, well pulverized, given in salt, will cause them to drop off, and prevent others from getting on for eight or ten days. I consider brimstone as necessary for a cow in summer, as salt.—*Ohio Farmer.*

Composition for rendering Boots and Shoes water-proof and durable.—Take one pint of boiled linseed oil, two ounces of common beeswax, and half an ounce of Burgundy pitch; let them be carefully melted over a slow fire. With this mixture, new boots and shoes are to be rubbed, either in the sun or at a little distance from the fire, with a sponge or brush. This operation should be repeated, without wearing them, as often as they become dry, until they are fully saturated, which will require four or five times brushing; by this the leather becomes impervious to water. The boot or shoe thus prepared, lasts longer than common leather, it acquiring such a pliability and softness that it will never shrivel nor grow hard; and in that state, is the most effectual preventive against colds, catarrhs, cholera, &c. It is necessary to remark, that shoes or boots thus prepared, ought not to be worn until they are perfectly dry and elastic; as, in the contrary case, the leather will become too soft, and wear out much sooner than it otherwise would.

FORD'S ELEGANT AND FASHIONABLE BOOT AND SHOE ESTABLISHMENT.—The subscriber has removed to the store two doors east of the one lately occupied by himself, (and nearly opposite Brown's Hotel,) which he has fitted up in a style not equalled by any establishment of the kind in the District, where he is prepared, with a very select stock of Boots and Shoes of every description, to attend to his customers in the best possible manner, as he uses none but the very best materials, has a set of journeymen not surpassed by any in the United States; and to attend which he has employed Mr. James Parsons, who is so favorably known to the citizens of the District as not to require a single remark here. But as he has succeeded so perfectly in fitting those of my customers whom he has attended to, I can but remark, in justice to his merit, that he has become, from experience and the most assiduous attention to business, perfectly habituated to the most elegant style of cutting and fitting; so much so, that he rarely ever fails in giving a perfect fit.

All kinds of work got up in the most elegant manner, and orders attended to with the utmost despatch.
Sept. 1.—*tf.* **JOS. B. FORD.**

GEORGE SWEENEY,
NOTARY PUBLIC, Conveyancer and General Agent, has removed to the Office of the Firemen's Insurance Company, Pennsylvania Avenue, opposite Brown's Hotel.
July 28.

NEW AND SEASONABLE DRY GOODS.—We have just received from the North, and offer for sale at our store opposite Centre Market, between 7th and 8th Streets, a very extensive assortment of fashionable and well-selected Fancy and Staple Dry Goods, consisting in part of the following goods, viz:

20 pieces Black Matteoni Lustring
30 do. Black and Blue-black Rept. Silks
100 do. Light Colored do. do.
10 do. Rich Figured Light do. do.
15 do. Black and Blue-black Bombasins
70 do. Rich Figured Shalleys, splendid
Rich Mouseline de Laine, in dress patterns
3 cases Dark Fall Prints, rich patterns
5 cases Flannels, assorted qualities
5 pieces Super Welsh Flannels
1 case Linen Cambrics
10 do. Linen Cambric Handkerchiefs
30 dozen French Kid Gloves, light and dark
Black and Blue-black Plain and Ribbed Silk Hose
White English Silk Hose
20 pieces Rich Belting
40 Rich Plaid Shawls
30 do. Cashmere Shawls
15 dark Thibet do. embroidered
75 Figured Thibet do.
Ladies' Fancy Silk Cravats
3 cases French Merinos
2 do. English do.
2 do. Canton Flannels, bleached and brown
15 pieces Plaid Swiss Book Muslins
1 case Fine Cambric Dimity
40 pieces Curtain Muslins
60 do. White Cambrics
200 dozen Spool Cottons, coarse numbers
100 pieces Narrow Thread Edging
50 do. Wide do. Lace
Black Lace Veils, a good assortment
200 Corded Skirts
10 pieces 12-4 Linen Sheetting
15 do. 10-4 do.
10 do. 6-4 do.
4 cases Long Cloths
30 pieces Casimires,
Which, with a great variety of goods, make our assortment as good as any in the District.
BRADLEY & CATLETT.
Sept. 8.—*3t.*

TO MERCHANT TAILORS.—The attention of the Merchant Tailors is respectfully requested to a large assortment of Goods in their line, which we have to-day opened, viz:

20 pieces wool-dyed Black Cloths
40 do. Fancy colored do.
20 do. Fashionable Figured Silk Vestings
2 cases Silk Velvets
Gentlemen's Lamb-swool Shirts and Drawers
do. super Hoskin Gloves
Gumelastic and Buckskin Braces

RICH CARPETING AND CURTAIN GOODS.—We are opening to-day
15 pieces rich two-ply Carpeting
10 do. fine do.
Rugs to match do.
1 case Damask Moreens
1 do. Watered do.
1 do. Turkey Red Cashmerets
Binding and Fringes
Worsted Tassels and Ornaments.
Sept. 8. **BRADLEY & CATLETT.**

SUMMER COMPLAINT, DIARRHŒA, DYSENTERY, and all other derangements of the Stomach and Bowels, are effectually cured by *Dr. Jayne's Cathartic Balm.*

Dr. Jayne—Dear Sir: Having made use of your Cathartic Balm in my family, and finding it to be admirably adapted to the complaints for which it is intended, I take pleasure in recommending it to the use of my friends, and the public generally, believing those who are afflicted with any of these complaints will find relief in the use of this valuable medicine.

JONATHAN GOIN, D. D.
President of Granville College, Ohio.
New York, May 20, 1837.

From the Rev. H. K. Green, Professor in the Germantown Collegiate Institute.

GERMANTOWN, April 30, 1838.
Dr. Jayne—My Dear Sir: It gives me pleasure to communicate, in this manner, my favorable opinion of your "Cathartic Balm." For two years it has been in almost constant use in my family. It was thus introduced: A child five years old had been sick, some 5 or 6 days, of the Dysentery. Calomel and other medicines had been largely administered, but without the least apparent benefit. The peculiar discharges from the bowels were unchanged in both character and frequency; the strength of the little patient could not hold out much longer. At this juncture I was reminded, by a friend, of your Balm. After a portion of Castor Oil, it was administered several times through the night. In the morning the Physician found the discharges "essentially changed;" the disease was checked, nay, removed; all other medicine was discontinued, and the child was soon restored to usual health. We have, ever since, kept this invaluable medicine for both adults and children have found it uniformly efficacious. We readily pronounce it the best adapted to family use of all the preparations with which we are acquainted. Hoping the public will soon become universally acquainted with this medicine, I remain yours, &c.,
H. K. GREEN.

For sale at **TODD'S Drug Store.**
June 28.

GARLEANT'S BALM OF HEALTH
PREPARED ONLY BY JOHN S. MILLER,
Frederick City, Maryland.

THIS valuable medicine has only been introduced to the public about five years, in various parts of the country, and hundreds of persons have used it, and found its beneficial effects, and seven out of ten cases have been permanently cured of the Dyspepsia, Cholera, Nervous Tremors, Lowness of Spirits, Palpitation of the Heart, and all those train of diseases resulting from a disordered condition of the stomach and liver, or derangement of the digestive functions, such as general debility or weakness, flatulency, loss of appetite, sour eructations and acidities of the stomach, costiveness, head ache, jaundice, flatulent and bilious cholera, &c.

The proprietor does not recommend it as most patent medicines are, as a cure all, and when used is found wanting, that the public have not so much deceived, that they can scarcely be prevailed upon to try any more, which is not the case with this Balm of Health, as hundreds of persons have received the most happy and good effects, which the proprietor can produce, if required, the testimony of many respectable persons, that have been cured of the above diseases.

The proprietor requests all those persons that are afflicted in the way above described, to give his medicines a fair trial, and he assures them that they will not be disappointed.

The Public will find it for sale—wholesale and retail—at
TODD'S Drug Store.
March 17.

NATIONAL BANNER.

Forever float that Standard Sheet!
Where breathes the foe but falls before us?
With Freedom's soil beneath our feet,
And Freedom's Banner streaming o'er us.

DEVOTED TO THE DEFENCE OF OUR NATIVE RIGHTS AND POLITICAL LIBERTIES, TO THE NEWS OF THE DAY, AND THE ARTS AND SCIENCES.

PROPOSALS are herewith issued for publishing, under the above title, and for the success of which, the publishers most confidently trust to the enlightened, the virtuous, and patriotic of our Native fellow citizens.

When it is considered, that with a population of thirteen millions of people, there is but one publication [the Native American, of Washington] throughout our country, and, in fact, devoted to purely American principles, to the advocacy of our Native Rights, and our own dearly cherished Liberties and Institutions, while there are additional reasons among us conspired, that the exclusive interests of foreign, local, and political intelligence, in which their feelings are most strongly and very naturally interested, or to the dissemination of principles inimically dangerous to our liberties and government—will not our patriotic fellow-countrymen come forward to the support of one sincerely devoted to their feelings, their rights, and their interests? We think they will.

Among the important political and national objects proposed by the NATIONAL BANNER is, the advancement of foreign intrigue and power, and precisely to announce, and fearlessly to oppose every encroachment upon our rights and liberties. Our principle of action will be to preserve the purity and permanency of our institutions, and our motto, "Our country, our whole country, and nothing but our country!"

Believing the time long since elapsed when, as was contemplated by our laws—if, indeed, that time was known at any period of our history—that the indiscriminate accession to our population by a virtual and an uncontrolled immigration of foreigners, we shall show the impolicy and danger—nay, the fatality and ruin, of their introduction in such swarms among us, and particularly those innumerable paupers and felons who are deported from Europe by the public authorities to rid themselves of the burden of their support and society, or their conviction and punishment, as well as, as the great numbers who flee their country to escape the justice due to dishonesty and crime. We shall assert the honor of our nation and the character of our fellow countrymen by opposing the humiliating practice of appointing foreign officials to offices of authority and honor, and by sustaining, by the integrity, the judgment and intelligence of our own Native sons for every department of their own government, and for every sphere of enterprise, genius, and learning. We shall proudly point our readers to every new development of our country's resources, to our national fountains of wealth, happiness, and power, and to the various distinguishing characteristics of our people, and of our Native Land. We shall at all times warn our fellow citizens of the dangers, to which, under their own peculiar government, they, more than any other people, are exposed from the well-known determination of foreign potentates, and the secret machinations of their base and bigoted agents to crush our free institutions; and we shall, with like fidelity, point out to them the most certain and honorable means to avoid such fatal results; while we shall, at the same time, endeavor to inspire them with that prudence, caution, and sense of self-respect, so just and so honorable to themselves, yet so lamentably wanting in their estimation of transatlantic pomp, pageantry, and power, and in respect to every thing foreign. Nor will we surrender, at wholesale, the most valuable gifts which the violence and recklessness of modern party spirit, which so frequently sacrifices at its shrine, the best interests and dearest privileges of our Native Citizens. We shall contend for an amendment of our Laws of Naturalization, so that the time shall be extended during which aliens are required to have existed in the United States, previous to their becoming possessed of all the rights and immunities of American freemen, and the power to wield the destinies of our country. We shall enforce, with all the facts and arguments so abundantly furnished by the subject, the necessity of a registration of voters as the only honest and efficient means by which to put a stop to the gross and frequent frauds practised upon the Elective Franchise, and the importance of requiring of Foreigners the ability, at least, to speak or read our language so as to be understood, before being invested with the sacred right of our own enlightened countrymen. It will be our duty and purpose likewise to show that the power to grant Certificates of Naturalization must be changed to other Courts, or Legislative Bodies, if we would not, by the surrender, at wholesale, the most valuable gifts common to Americans; as well as, as the great advantages which would result to our free institutions, our safety, happiness, and pecuniary profit by requiring of Aliens a passport of character, &c. on their arrival in this country. We shall, in fine, examine and discuss the various political and general subjects of the day with impartiality, honesty, and independence, and mainly, as they may, now or hereafter, affect our National interest and the prosperity of the American people.

The National Banner will likewise embrace the general news of the day, yet always the more useful and pleasing. Among its miscellaneous subjects—to be given with a like careful reference to their practical utility in the various pursuits of life, their amusing or spirited character, and the exposure of every species of quackery, those illustrative, and promoting, American enterprise, literature, patriotism and virtue, will be conspicuous. Intelligence from Europe, and other parts of the world, of the subject, will be given, with the same steady communication, with similar views, and with the same steady purpose of affording, in a condensed form, the most important information on all subjects to the American general reader.

In the other great object proposed by this publication, as a journal of popular Science and the Arts, it will stand alone; there being no weekly, and but one of the kind in the United States. This department will embrace, briefly, the new and valuable discoveries and remarkable phenomena in the various branches of useful science, mental, natural, and mechanical philosophy, together with late inventions and improvements in the useful and ornamental arts, as they are progressively developed in this country and in Europe.

This branch of pleasing and important intelligence, and its applicability to the numerous purposes of society, business, and life, is not, we believe, generally appreciated. Such being, then, in general terms, the objects and designs of the National Banner, the publishers appeal to the patriotic and scientific, to Mechanics and Artists, as well as the general reader, for a liberal patronage; assuring every reader, that the resources will be secured, and the most untiring exertions made to render it among the most acceptable of the day.

The National Banner will be neatly printed on a large quarto sheet of eight pages, fine paper, and issued on Saturday evening of each week, at the low price of \$2 per annum, or \$1 for six months, payable on the delivery of the second number.

N. B.—As the publishers pledge themselves that this publication, when commenced, shall be continued in the full prosecution of all its objects and in conformity with the views herein expressed, and that the number of subscribers shall be sufficient to defray its expenses; and should its patronage justify, it will be published daily.

LORING D. CHAPIN, Editor.

SATIN VESTINGS, CLOTH PADDDINGS, &c.
For Merchant Tailors use. We have to-day opened
10 pieces six-quarter Super Scarlet Paddings,
5 do. English Satin Vestings,
50 do. Fig. Silk Vestings,
50 do. Cotton Seficia.
Aug. 18. **BRADLEY & CATLETT.**

IMPORTANT INFORMATION to persons afflicted with the following complaints, viz: Scrofula, Leprosy, Salt Rheum, St. Anthony's Fire, Fever Sores, even when the bones are affected, White Swellings; Violent Eruptions, after measles, Scurvy, Foul Festering Eruptions, Pimples and Carbuncled faces, Sore Eyes, Sore Legs, Scald Head, Ulcers, Venereal Taints, when Mercury has failed, and all disorders arising from an impure state of the blood continue unrelieved, for the prevention, relief, and cure of these complaints. In proof of which read the following remarkable cure of a case of 12 years' standing.

Extract of a letter. "Sir: My leg, which before did not look like a human limb, is now entirely healed up (after resisting every other application for 12 years) Previous to taking your Relfe's Botanical Drops, I had given up all hope of relief.

Another Case. An agent writes, "There is a person taking the Botanical Drops, evidently with the greatest advantage." He declares, to use his own words, "It is doing wonders for him," and is, as it were, "snatching him from the grave."

Numerous instances have occurred where persons were pining away a miserable existence, nothing they could procure affording them permanent relief, until they had made use of the above invaluable Medicine.

They are also the best Spring and Autumnal Physic Price \$1, or 6 bottles for \$5.

Washington, D. C.

Recommended by the Medical Faculty.

FLODOARDO HOWARD'S
Improved Compound
FLUID EXTRACT OF SARSAPARILLA

FOR THE CURE OF
Scrofula or Kings Evil, Chronic Rheumatism, Syphilis and Mercurial Diseases, White Swellings, and all diseases requiring the aid of alterative medicines.

This Extract is prepared from an improved formula, sanctioned by scientific Physicians and Pharmacologists, and is decidedly one of the most active, efficacious, and convenient preparations in use.

It should be used, where circumstances will admit, under the guidance and direction of a physician.

Carefully prepared and sold only at my Pharmacy.

FLODOARDO HOWARD.

Also for sale at most of the Drug Stores in Washington City, Baltimore, and throughout the United States.

The following Select Medicines and miscellaneous articles are also prepared and sold as above:

HOWARD'S TONIC MIXTURE, warranted a cure for fever and ague.

HOWARD'S COMPOUND OF SARSAPARILLA, CUBES, AND COPAIBA, for the cure of Gonorrhea, Gleet, Stricture, &c. **HOWARD'S VERMIFUGE**, a safe and effectual worm-destroying medicine.

HOWARD'S CATHARTIC PILLS, without mercury.

HOWARD'S COMPOUND KREOSOTE TOOTH ACHE DROPS.

HOWARD'S COMPOUND SYRUP OF CARBAGEEN, a safe, simple, agreeable, and effectual remedy for coughs, colds, asthma, &c.

HOWARD'S COMPOUND KREOSOTE TOOTH WASH, for arresting and preventing decay in teeth, and for diseases of the gums; an agreeable and pleasant wash for preserving them in a healthy condition.

HOWARD'S KREOSOTE TOOTH PASTE.

DR. WISTAR'S COUGH LOZENGES, celebrated for the cure of coughs, colds, &c.

HOWARD'S VERMIFUGE, &c.

HOWARD'S IRRITANT CHEMICAL CHLORIDE SOAP.

HOWARD'S CHEMICAL SHAVING COMPOUND.

HOWARD'S SUPERIOR TOILET SOAP.

HOWARD'S CHEMICAL ESSENCE OF SOAP, for removing grease, paint, &c., from wearing apparel.

HOWARD'S CHRYSTAL CEMENT, for mending broken glass, china, earthenware, &c.

HOWARD'S ISSTIE OINTMENT, for keeping open issues and blisters.

HOWARD'S MAGNOLIA EXTRACT, a delicate and delicious perfume for the hair, &c.

HOWARD'S SUPERIOR COLOGNE WATER.

HOWARD'S FLAVOUR WATER.

HOWARD'S LAVENDER WATER.

HOWARD'S HONEY WATER.

HOWARD'S SUPERIOR TOOTH POWDER.
April 14.

CONSUMPTION!

DR. RELFE'S ASTHMATIC PILLS have, from their extraordinary success in giving instant relief, and in curing Coughs, Asthma, Difficulty of Breathing, Wheezing, Tightness of the Chest, Pain in the Side, Spitting of Blood, Chillsiness and Shiverings that precede Fevers and Lung Complaints generally! become one of the most popular Medicines known, and are sought after from every part of the country, on account of the astonishing success which has attended their administration in the above complaints, frequently curing the most obstinate cases, and giving the most unexpected relief, after every other remedy has failed, and persons have given themselves up in despair of a cure!

They have been known to cure persons supposed to be far gone in consumption, and exhibiting all the appearance of approaching dissolution.

And such have been the salutary effects of these Pills, even in hopeless cases, as so far to mitigate the sufferings of the patient, as evidently to prolong life for days and weeks, and give to it a positive comfort they never expected to enjoy.

The operation of the pills is wonderful in easing respiration, quieting the cough, and procuring comfortable rest.

Common colds are frequently removed in a few hours. "Although (says a person speaking of these Pills) my wife has tried various medicines of the first celebrity, for an Asthmatic difficulty, (or affection of the lungs,) which at times was exceedingly distressing, confining her to her bed for days and weeks together, she finds nothing gives her the relief which Relfe's Asthmatic Pills do—easing her respiration, quieting her cough, and giving her comfortable rest." And this is the testimony of hundreds or thousands. The relief which aged people, as well as others, experience from the use of these Pills, is truly astonishing, and renders them invaluable to many, and are in fact, to some, an essential auxiliary to their comfort, and almost to their existence!

A Physician informs the Proprietor, that a gentleman in the country observed to him, he had reason to believe the use of these Pills had been the means of saving his life.

Price—whole boxes, 30 Pills, \$1; half do, 12 Pills 50 cents.

Prepared by Thompson Ridder, Boston, and for sale at **TODD'S Drug Store.**

JAYNE'S INDIAN EXPECTORANT, is recommended as decidedly superior to any other known combination of medicine, for Coughs, Colds, Influenza, Consumption, Asthma, Spitting of Blood, Angina Pectoris—Palpitations of the Heart, Bronchitis—Chronic Pleurisy, Hoarseness, Difficulty of Breathing, Hooping Cough, and all Weaknesses of the Breast, and all diseases of the Pulmonary Organs.

This medicine is highly and justly recommended, by numerous and respectable individuals, who have found relief from its use. Many who have been laboring under protracted coughs and pains in the breast, and have been supposed by themselves and their friends far advanced in consumption, have been happily restored to perfect health by the use of this valuable Expectorant.

DR. JONATHAN GOING, President of the Granville College, Ohio, (late of New York,) in a letter to the proprietor, dated New York, December, 1836, says—"I was laboring under a severe cold, cough, and hoarseness, and that his difficulty of breathing was so great that he felt himself in imminent danger of immediate suffocation, but was perfectly cured by using this Expectorant." Mrs. Delks, of Salem, N. J., was cured of Asthma of twenty years' standing, by using two bottles of this medicine. Mrs. Ward, also of Salem, was cured of the same complaint by one bottle. A young lady, also of Salem, who was believed by her friends to be far gone with consumption, was perfectly restored by three bottles. Dr. Hamilton, of St. James, South Carolina, was greatly affected by a cough, hoarseness and soreness of the lungs, and on using a bottle of this medicine found permanent relief, a might in addition to the above, several hundred case Cough mentioned of its promptly curing Hooping when every other treatment had failed in giving relief.

In fact, the proprietor can refer to several hundred individuals, in the city of Philadelphia alone, who have been cured of Asthma, Bronchitis, Spitting of Blood, and every variety of disease of the Breast, whose certificates would occupy too much space to publish; and he is daily receiving, from every part of the Union, the highest testimonials in its favor.

The Rev. C. C. Crosby, late Agent of the American Baptist, writes as follows:

NEW YORK, JUNE 15, 1835.

To Dr. JAYNE.—Dear Sir: I have made use of the Indian Expectorant, personally and in my family, for the last six years, with great benefit. Indeed I may consider my life prolonged by the use of this valuable medicine, under the blessing of God, for several years. I may say almost as much in the case of my wife, and also of the Rev. Mr. Tinson, of the Island of Jamaica. For all cases of cough, inflammation of the chest, lungs, and throat, I do most unhesitatingly recommend this as the best medicine I have ever tried. My earnest wish is, that others, afflicted as I have been, may experience the same relief, which I am persuaded they will, by using the Indian Expectorant.

C. C. CROSBY.

N. B.—Many of my neighbors, on my recommendation, have tried this medicine with uniform success.

Mr. Crosby's residence is near Elizabethtown, N. J.

Copy of a letter from the Rev. Simon Steinfeld, Pastor of the Baptist Church at Roxbury, near Philadelphia.

DR. D. JAYNE.—Dear Sir: You will probably recollect that about two years since, I called upon you and procured a bottle of your Indian Expectorant, stating that I was then troubled with an inveterate hoarseness and cold of three months standing, for which no medicine that I had tried afforded any relief. I deem it due to you and to the Expectorant, to inform you that the use of one bottle entirely removed the complaint, and that I have had no return of it since. From a fair trial of this medicine, and also of your Carmine Balm, in my own family, and under my observation, I confidently recommend both to the afflicted.

Yours truly,
S. SIEGFRIED.

Philadelphia, July 8, 1837.

TODD'S Drug Store

NATIVE AMERICAN ASSOCIATION

Preamble and Constitution of the Native American Association of the United States.

Whereas it is an admitted fact that all Governments are not only capable, but bound by all the principles of national preservation, to govern their affairs by the agency of their own citizens; and we believe the republican form of our Government to be an object of fear and dislike to the advocates of monarchy in Europe, and for that reason, if for none other, in order to preserve our institutions pure and unpoluted, we are imperatively called upon to administer our peculiar system free of all foreign influence and interference. By system free of all foreign influence and interference, to the exercise of those high attributes which constitute the rights of the native born American citizen, we weaken the attachment of the native, and gain naught but the sordid allegiance of the foreigner. The rights of the American, which he holds under the Constitution of the Revolution, and exercised by him as the glorious prerogative of his birth, are calculated to stimulate to action, condense to strength, and cement in sentiment and patriotic sympathy.

Basing, then, the right and duty to confederate on these high truths, we profess no other object than the promotion of our native country in all the walks of private honor, public credit, and national independence; and therefore we maintain the right, in its most extended form, of the native born American, and he only, to exercise the various duties incident to the ramifications of the laws, executive, legislative, or ministerial, from the highest to the lowest post of the Government; and to obtain this great end, we shall advocate the entire repeal of the naturalization law by Congress. Aware that the Constitution forbids, and even if it did not, we have no wish to establish, *ex post facto* laws; the action we seek with regard to the laws of naturalization, is intended to act in a prospective character. We shall advocate equal liberty to all who were born equally free; to be so born, constitutes, when connected with moral qualities, in our minds, the aristocracy of human nature. Acting under these generic principles, we further hold that, to be a permanent people, we must be a united one, bound together by sympathies, the result of a common political origin; and to be national, we must cherish the native American sentiment, to the entire and radical exclusion of foreign opinions and doctrines introduced by foreign parents, or foreign political adventurers. From Kings our gallant forefathers won their liberties—the slaves of Kings shall not win them back again.

Religiously entertaining these sentiments, we solemnly believe that the day has arrived, when the Americans should unite as brothers to sustain the strength and purity of their political institutions. We have reached that critical period foreseen and prophesied by some of the clearest sighted apostles of freedom, when danger threatens from every ship that floats on the ocean to our shores; when every wind that blows saffers the ragged banners of our cities, bearing in their own persons and characters the elements of degradation and disorder. To prevent these evils, we are now called upon to unite our energies. To fight over this great moral revolution, the shadow of our first revolt of glory, will be the duty of the sons of those wars, and we must go into the combat determined to abide by our country: to preserve her honor free from contagion, and her character, as a separate people, high and above the engraftment of monarchical despotisms.

ARTICLES OF THE CONSTITUTION.

First. We bind ourselves to co-operate, by all lawful means, with our fellow native citizens in the United States to procure a repeal of the naturalization law.

Second. We will use all proper and reasonable exertions to exclude foreigners from enjoying the emoluments or honors of office, whether under the General or State Governments.

Third. That we will not hold him guiltless of his country's wrong who, having the power, shall place a foreigner in office while there is a competent one willing to accept.

Fourth. That we will not, in any form or manner, connect ourselves with the general or local politics of the country, nor aid, nor be the means of aiding, the cause of any politician or party whatsoever, but will exclusively advocate, stand to, and be a separate and independent party of native Americans, for the cause of the country, and upon the principles as set forth in the above preamble and these articles.

Fifth. That we will not, in any manner whatever, connect ourselves, or be connected, with any religious sect or
